

CAAFI Virtual Mini-Symposium June 1-3, 2021

In place of the in-person CAAFI Biennial General Meeting that was postponed to 2022 due to COVID uncertainties, we are pleased to invite you to join us virtually for a condensed update webinar on the state of sustainable aviation fuel (SAF):

- Tuesday – Thursday, June 01-03, 2021.
- Three hours daily, 10:00 am to 1:00 pm EDT.
- Please consider joining us and block your calendars accordingly.

The 2021 CAAFI Mini-Symposium tentative agenda* is structured as follows:

(* subject to additional updates to reflect then-current events or other hot topics)

The CAAFI Virtual Mini-Symposium is being designed to target the interests of the CAAFI membership, and is being initially sent to our distribution list (including CAAFI members, policy makers, and select press), however participation will be open to other interested parties (via your dissemination and other word-of-mouth efforts).

All of our sponsors remain committed to seeing SAF deliver net carbon reductions for the sector, and in turn support the broad range of CAAFI efforts targeting the near-term development and commercialization of SAF. You have probably seen a wide range of announcements about SAF recently, and we are aware that more will likely follow over the next several months. This mini-symposium is intended to provide you a comprehensive overview of the status of SAF development and commercialization.

We hope you block your calendars and plan to join us.

We will be adding more details here shortly, so please check back soon.

Sincerely,
